CAMERA TEST : "DOCTOR WHO".

Miss Pauline Mansfield-Clark.

10th September, 1964.

I have asked the following two girls to be at Television Centre at 11.15 a.m. on Monday, September 14th, for a camera test. As they have both been down to see me once already and they are coming down again at my request, I would like to reimburse them for their train fares.

They are both coming from Liverpool and will require 2nd class return train fares. I have told them to buy their own tickets and they will probably be reimbursed by cheque.

Their names and addresses are as follows:-

Maureen O'Brien,

Denise Upson,

Will you please bear in mind when casting, that we must never repeat actors in major parts. Therefore, anybody who has been used as a speaking part in a serial (with the possible exception of the Paleolithic Age, because they were unrecognisable) should not be considered again.

As there is quite a break before serials L and M I would like, if possible, to hold Planning Meetings before I go into rehearsal, for as many episodes as I have prepared. In this way I need never feel rushed at Planning Meetings and they need not interrupt Wednesday's rehearsals to any great extent, e.g. if I were to start the Planning Meeting at 10 o'clock I could be back at rehearsal with the actors for 11.30 am (incidentally, last time I did "Dr. Who" I rehearsed from 10.00 am to 5.00 pm but the regulars were not too happy with this. Do you think they would object if I rehearsed from 10.00 am to 5.00 pm this time?).

Again because of the break, might it not be possible to get the cast together for a script conference before we go into rehearsal so as to have more time for rehearsals on Wednesdays? It does seem that Wednesdays are almost a dead loss from a rehearsal point of view and with all the criticisms that have been levied at "Dr. Who" about "poor acting" are we not perhaps rehearsing too little on what is often very complex stuff technically?

(Christopher Barry)

8th October 1964

Dear Verity,

I should be delighted to join you on the 20th October but I am giving a lecture that evening so will only be able to look in at the beginning for about twenty minutes but it will be nice to renew acquaintance again particularly as I am about to start another production of "Dr. Who".

Thank you very much.

Reference your memo. of 8th October.

As far as I am concerned I am quite happy to have planning meetings for the episodes you have prepared before you go into rehearsal.

I think it is up to you to discuss with the actors a possible 10.00 a.m.-5.00 p.m. rehearsal period. I do not think that they are particularly against this. The only day that we have regularly and in 11 o'clock it is on Monday, as Bill Bostrell travels up from the country on that day and cannot get to rehearsal before 11.00 a.m.

I am afraid it is not possible to get the cast together for a script conference before we go into rehearsal. They have been working regularly for 52 weeks and I feel, from their point of view, they must have a complete break away from the show.

I agree with you it is quite possible that we are, perhaps, releasing a little. Most directors during the past few weeks and months have not rehearsed on Thursday afternoons. The cast have now got to feel that Thursday afternoon is an afternoon free. However, this is not so and, in fact, shall you wish to rehearse Thursday afternoons, with them, they are being paid for it.

As you know, we can, in fact rehearse for 6 hours. If you are not with the actors till 11.30 a.m. or 12.00 on a weekday, you have an extension till 7.00 p.m. There is no reason, in fact, not to rehearse after the script conference. *(or to have a late run thru as discussed this morning)*

I am also enclosing a copy of a memo re ~~your~~ Design Information Notes, which will affect your programmes in Week 53 and Week 1.

Pat Heigham, Rm.4029 T.C.

Following our conversation last Friday I wondered whether you had been able to track down the tape of background music recorded by Tristram Cary for Serial B of "Dr Who". If you can find it I would be most grateful if you could send it to me in Room 510 Threshold House as soon as possible as I am rather anxious to hear it.

I understand you have had to take the Waiting Room from Union/Threshold House for use as an office and I wish to urge you to provide a replacement Waiting Room, however small, without delay. It is exceedingly difficult and embarrassing when actors, often of high professional standing, are kept waiting in the poky and draughty Reception corridor if they happen to arrive early for an interview.

I am sure other producers will support me in this.

Dear Chris,

Fortunately I kept the tracks  
of the whole of Serial B, and here  
they are, with extracts from my  
covering letters giving page references  
to the appropriate scripts.

I am sure you will find some  
things you want specially done, and  
some of these may need adapting  
even you use them. For example  
the lengths may be wrong or the

climaxes in the wrong place.

Anyway the best of luck, and  
I expect to hear from you soon.

Yours

William

P.S. The posts are so unreliable these  
days that it might be an idea  
if your secretary acknowledged  
arrival of these tapes. They are  
the only copies of course, so it  
would be a nuisance to lose them.

Following our telephone conversation I would like to confirm my booking of an 18 x 12 screen for Moving SP in Studio 3A/B at Ealing on the 17th and 18th November for Serials L and M of "Dr Who". Project No. 23/1/4/3354.  
The film of clouds that we shall require is to be discussed by Raymond Cusick.  
Many thanks.

Dear Tristram,

I now have had time for a preliminary matching up of the Serial B tapes with the Serial I scripts and at first hearing it would seem that they cover all my needs. At any rate I am arranging next week to transfer what I think I need from your original tapes and later will assess if I need any further material from you though I think this will not be the case.

When I have done this transfer I will return your tapes to you.

I do hope your cold is better. Do look in next time you are down this way.

Kind regards.

Yours sincerely,

(Christopher Barry)

Will you please arrange to have a fireman in Studio 3A/B on Wednesday, 18th November as we will have a model shot of Rome burning and a C.U. of plans being set fire to as if from a burning glass. We would also like the fireman to stand by on Thursday, 19th November in case we do not complete the filming on Wednesday.

This is for "Dr Who" Serials L and M. Project No. 23/1/4/3354.  
Many thanks.

At the beginning of the enclosed tape you will find Tristram Cary's horrible noise (actually the death of a Dalek) which I want to use for the death of the Sand Monster. I think I told Desmond that I would be sending it to you in order that you may have some idea of the kind of noise the monster makes when dying so that you can make its living roars to match. I am told to tell you that the tape has been pre-recorded on twin track and to use Band A. As the rest of the tape has something on it I would like to keep please could you return it when you've finished with it.

Dear Miss Lambert,

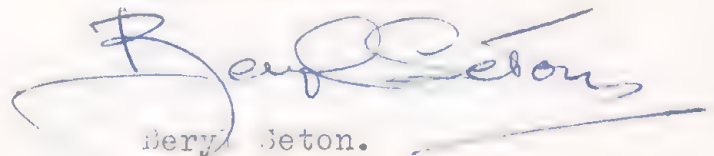

Re: JOHN CRONIN

I have been asked by my client, Mr.Cronin, to send you a photograph, which I have pleasure in enclosing.

I understand that Mr.Richard Waring has spoken to Mr.Christopher Barry about him, with a view to the possibility of using him in 'Dr.Who!'. Mr.Cronin's work is wellknown to Mr.Waring and I should like to add my strong recommendations of this very excellent actor.

Perhaps you would be kind enough to let me know if you would like to interview him.

Yours sincerely,

  
Beryl Seton.

Dear Bernard,

Its a long time since we worked together. I would very much enjoy it if you would consider this Jekyll and Hyde type part which, as you will see, would only involve you from November 30th to December 11th for which you would receive two Catagory A fees.

I will be very grateful if you will let me have a reply very soon.

Kind regards.

Yours sincerely,

Dear Miss O'Brien,

I do hope I didn't terrify you too much last Monday.

I have spoken to Verity Lambert and we have decided that it would be a good thing to release scripts to you now even though they may need revision later and your name in the serial has not been fixed.

I hope you enjoy reading them. If there is anything you do not understand or are not happy about please get in touch with me as I shall be only too happy to help if I can.

Kind regards.

Yours sincerely,

Dear Russ,

I hope you are now so thoroughly immersed in the bosom of your family that you cannot wait to get back to work. At any rate here are the results of our labours in your absence. I thought you would like to have them early so that you could read them at your leisure and get in touch with me about any points that may arise from your reading before we go into rehearsal.

Kind regards.

Dear Bill,

I do hope you've had a jolly good rest and that the lower pockets of your lungs are full of fresh Atlantic gales as opposed to those rather effete French breezes that come across the Channel to you at Brighton.

As you can see by the enclosed, we have not been idle in your absence and I thought you would appreciate having the scripts for both Serials L and M well in advance so that if there are any points in the scripts you would like to discuss there will be plenty of time to do so before we go into rehearsal. At any rate please do not hesitate to get in touch with me if there should be any point you want to raise.

Kind regards.

## DR. WHO'S MYSTERY GIRL

A new face joins the regular cast of "Dr. Who" on January 2 to replace Susan, Carole Ann Ford who leaves the serial at the end of the year.

Her name is Maureen O'Brien. She is twenty-one and comes from Liverpool where she lives with her parents, 4 brothers and 3 sisters.

A newcomer to the world of entertainment, she studied at the Central School of Speech and Drama and then went to the Everyman Theatre in Liverpool where she played "bit parts" in several productions including Shakespeare. This is the very first time she has appeared on television.

Dear Mr. Barrett,

I am very happy you have agreed to play in "Dr Who" and enclose the two scripts.

As you will see the part of Bennett is something of a gimmick in the Jekyll and Hyde tradition which I think you will find not uninteresting to do.

Please do not hesitate to get in touch with me if you have any suggestions to make between now and the 30th. I shall be looking forward to meeting you then.

Dear Tristram,

Here are the two tapes you lent me plus the one I found in the recording studio.

I am using about eighteen music cues in the two episodes and have selected them from your band nos. 1A, 1B, 2,3,4,5,6,7A,13,15,16,17,18,21, 21A,28 and 34 which, although written for other occasions, seem to fit the bill admirably for this story. I have taken a master of all these bands so should not need these any more.

I gather that as all this music has been played before no contract is necessary and that you will receive payment in the usual way for repeats (in due course!).

I trust you and your family are well and fully prepared for the rigours of an East Anglian winter. Don't forget to drop in for a pint any time you're down this way.

With kind regards,

Yours sincerely,

19th November 1964

Dear Mr. Sheridan,

I have pleasure in enclosing scripts for episodes 1 and 2 of Serial L of "Dr Who" in which you will be playing the SAND MONSTER as well as doing the Space Captain's Voice out of vision and appearing at the end of the second episode as a Robed Figure. We have not billed you as the Space Monster in case this destroys the illusion but you will appear on the cast list as Space Captain.

As you will see from the script our first rehearsal will be at 11.00 am on Monday, 30th November at the London Transport Assembly Rooms (a map showing how to get there is enclosed) and we look forward to meeting you then.

Incidentally coffee will be served at 10.45 am if you would like to arrive in time for it.

Yours sincerely,

(Thelma Helsby)  
Assistant to Christopher Barry

## 'DOCTOR WHO AND THE RESCUE'

First Episode Saturday, 2nd January, 1965

(pre-recorded 4th December, 1964)

Written by David Whitaker

Directed by Christopher Barry

Produced by Verity Lambert.

THE SERIAL

Commencing transmission on 2nd January, 1965, a two part "DOCTOR WHO" serial will be presented each Saturday at 5.40 p.m.(?) on BBC-1.

Episode titles are as follows:-

1. The Powerful Enemy
2. Desperate Measures

SYNOPSIS

Doctor Who, Ian and Barbara land on the planet Dido - a planet already known to Doctor Who from a past visit. Immediately on landing their lives are in danger - a surprise to the Doctor whose recollection is that the people were very friendly. Exploration reveals a crashed Earth Rocket Ship with two survivors - Bennett, and a young girl, Vicki. According to their story, Koquillion, a member of the native population is keeping them prisoner, and their only hope is a rescue craft, already on its way to Dido. Doctor Who challenges Koquillion's dominance. Eventually, he learns that Bennett has committed an act, resulting in the death of both the Space Ship crew, and Dido's people, or at least this is Bennett's belief. Doctor Who discovers his elaborate plan to hide his guilt. Doctor Who and the crew of the Tardis offer Vicki, the young girl, a chance of joining them, which she accepts. The ship de-materialises for pastures new.

THE AUTHOR

David Whitaker worked in the theatre until 1957 when he joined the BBC. Since 1957 he has worked mainly in the Drama Department, but was lent to Light Entertainment for two years as a writer and to organise the script section of that Department. He has worked on "DOCTOR WHO" as the Script Editor for the last eighteen months and wrote the two part serial "IN THE SPACESHIP" which was transmitted in February, 1964. He has also written for "COMPACT", "GARRY HALLIDAY" and "WOMAN DETECTIVE". His plays include "CHOICE OF PARTNERS", "CONGRESS AT VIENNA", "THE ONE DAY A YEAR MAN" and many others.

He is married to June Barry, the actress.

THE DIRECTOR

Christopher Barry was in the film industry at Ealing and joined the BBC Drama Department as a Production Assistant in 1955. He worked on "STARR AND COMPANY" and "PRIVATE INVESTIGATOR". He was one of the original directors on "COMPACT". Among his other productions are "YOU TAKE OVER", "THE PROPERTY IN QUESTION", "THE NET in 1961-2 and, in 1963, the Sunday afternoon serial "NO CLOAK-NO DAGGER". He directed the first Dalek serial of "DOCTOR WHO" and has also directed "ANN VERONICA" and "SMUGGLER'S BAY".

THE PRODUCER

Verity Lambert.

THE ARTISTS:

WILLIAM HARTNELL as Doctor Who

WILLIAM RUSSELL as Ian Chesterton

JACQUELINE HILL as Barbara Wright

All these artists are remaining for the second series of "DOCTOR WHO" which is 26 weeks.

Introducing MAUREEN O'BRIEN as Vicki

This is Maureen O'Brien's first part on television. She comes from Liverpool and is 21 years old. She studied drama at the Central School with a view to teaching and then decided she wanted to act herself and took a job as Assistant Stage Manager at the Everyman Theatre in Liverpool, where she played Lady Mortimer in "HENRY IV", Mary Stockman in "AN ENEMY OF THE PEOPLE" and appeared in small parts in other plays.

RAY BARRETT as Bennett

is an Australian and has been in this country for some years. During that time he has been seen on BBC in the series "DIXON OF DOCK GREEN" and "Z CARS". Plays include "REUNION DAY" and "THE STRAIN" by Alun Owen, which was transmitted in 1963. He will be seen in December this year playing Mitya in "THE BROTHERS KARAMAZOV".

On ITV he has appeared in the series, "GHOST SQUAD", "GIDOEN'S WAY" and "THE SAINT" and the plays, "BURIED MAN", "JACKO AT WAR" and "31 BACKYARD".

With reference to the synopsis: As this is the two part serial designed primarily to introduce the character of Vicki, and this forms the main part of the story, I would prefer that this storyline is not released to the press.

20th November 1964

Dear Jackie,

Hope you had a fabulous trip and are not too disappointed to be back.

Here are the scripts for the two serials which I hope you will like. I shall look forward to hearing your comments so do ring me if there is anything you are unhappy about.

As Verity has probably told you, we are hoping Derek might play Nero but as he appears to have other plans we hope you can chat him up and get him to do this: I am sure he would enjoy it.

Looking forward to seeing you. Kind regards to Al.

Love,

BBC recording

24th November 1964

Dear Mr. Barrett,

I am addressing this letter to you both in Scotland and at home because I am anxious that you should get it in time to be able to get in touch with me on Thursday.

The reason is that we have been making considerable adjustments to the "Dr Who" scripts which will in no way diminish your part in it but will make your behaviour more rational. There are several things in it which we have not been at all happy about but which we now feel we have solved and so there will be quite a lot of new pages before we go into rehearsal - better then than later!

I thought that perhaps you might care to get in touch with me when you return to London and possibly come and meet Verity Lambert, the producer, and myself so that we can put these points to you and obtain your views before the weekend.

I am sure that what we have done can only make you happier with the scripts and are very much for the good both of your characterization and the programme as a whole.

Yours sincerely,

(Christopher Barry)  
Director, Drama Serials.

Doctor Who : Serial L

Doctor Who, Ian and Barbara land on the planet Dido - a planet already known to Doctor Who from a past visit. Immediately on landing their lives are in danger - a surprise to the Doctor whose recollection is that the people were very friendly. Exploration reveals a crashed Earth Rocket Ship with two survivors - Bennett, and a young girl Tanni. According to their story, Koquillion, a member of the native population is keeping them prisoner, and their only hope is a rescue craft, already on its way to Dido. Doctor Who challenges Koquillion's dominance. Eventually, he learns that Bennett has committed an act, resulting in the death of both the Space Ship crew, and Dido's people, or at least this is Bennett's belief. Doctor Who discovers his elaborate plan to hide his guilt. Doctor Who and the crew of the Tardis offer Tanni, the young girl, a chance of joining them, which she accepts. The ship de-materialises for pastures new.

## VICKI JOINS DR. WHO

(Saturday, January 2: 25 mins.)

Dr. Who, Ian, and Barbara land on Dido, a planet already known to the doctor from a previous visit. Remembering that the inhabitants were friendly the doctor and his crew are astonished when they find their lives endangered. While exploring they find Vicki, a young girl destined to play a large part in their adventures.

Maureen O'Brien a 21 year old actress from Liverpool has the role of Vicki. She is the daughter of a structural engineer and has four sisters and three brothers. This will be her television debut; but she has appeared at the Everyman Theatre, Liverpool, where she played small roles mainly in Shakespeare.

Producer: Verity Lambert. Directed by Christopher Barry.
